

Durability By Design Since 1873

Product Brochure - 60 Hz.

482 Series EGB

End Gun Booster Pumps

Features & Benefits

- Interchangeability with leading EGB manufacturers
- Efficiency Design: Higher flow rates with less HP required
- Space-saving Design: Vertical mount minimizes overall footprint

Technical Data

- NEMA 60 Hz. J56 Frame
- Available in 2HP or 3HP
- Standard, auto reset or manual reset
- Double sealed bearings

Materials of Construction

- Cast Iron construction
- 2.5"x2" NPT suction/discharge connections
- Mechanical Seals:
 - Standard: Buna-Carbon head/Ceramic seat
 - Optional: Viton-Carbon head/Silicon Carbide seat
 - Viton-Silicon Carbide Head/Silicon

Applications

- Center Pivot Irrigation
- End Gun Booster

Max Head: 80 feet
Max Flow: 260 GPM
